

Lakeside Living

A Social Magazine Exclusively For The Residents Of Gravelly Lake Drive, Madera, and Tacoma Country & Golf Club

Turning Neighborhoods into Communities

Exposing your brand through 3 different touch points with our integrated, multifaceted marketing program. Allowing businesses to cut through the noise of other marketing efforts and stand out from the competition.

Our Publications

We share stories of residents, so neighbors learn a little more each month about the people around them. We connect small businesses with some of the most affluent homeowners in the nation for nearly 15 years.

Social Media Remarketing

A digital marketing method that places our clients' point ads in the personal social media feed of our residents by targeting their geographic locations, i.e., the publication's neighborhood. 80% of our residents are active on social media. Digital remarketing complements the publication and events.

Events

Residents enjoy meeting other residents and the businesses who sponsor the publication.
